4. comprehend the process of assessment for learning

5. develop skills necessary to compute basic statistical measures to assess the learning.

Learning Outcomes of Course 104

The Student teacher will be able to

1. The Student teacher will help to understand the process of evaluation.
2. The Student teacher will develop the skill in preparing, administering and interpreting the achievement test.
3. The student teacher will help to understand and use different techniques and tools of evaluation for learning.
4. The Student teacher will comprehend the process of assessment for learning
5. The student teacher will develop skills necessary to compute basic statistical measures to assess the learning.

BED 105: Advanced Pedagogy and Application of ICT

Objectives: To enable the student teacher to

1. understand the concept of Advanced Pedagogy and its implementation in classroom
2. use of Pedagogical methods to meet the needs of diverse learners.
3. understand the concept, need and importance of ICT and its application in education
4. understand ICT based teaching-learning strategies & resources.
5. create awareness about appropriate use of ICT
6. develop educational material using advanced pedagogical strategies and ICT tools.

Learning Outcomes of Course 105:

1. The student teacher will help to understand the concept of Advanced Pedagogy and its implementation in classroom
2. The Student teacher will help to use of Pedagogical methods to meet the needs of diverse learners.
3. The student teacher will understand the concept, need and importance of ICT and its application in education
4. The student teacher will understand ICT based teaching-learning strategies & resources.
5. The student teacher will create awareness about appropriate use of ICT

6. The Student teacher will develop educational material using advanced pedagogical strategies and ICT tools.

BED 106-03: UNDERSTANDING DISCIPLINES AND SCHOOL SUBJECTS

ENGLISH

Objectives: To enable the students to:-

- 1.The student teacher will acquire proficiencies in listening, speaking, reading, writing and communication skills.
- 2.The student teacher will acquaint with essential aspects of English Grammar and composition.
- 3.The student teacher will understand the scope of syllabi in English.
- 4.The student teacher will develop interest and attitude towards English as foreign language.

Learning outcomes of 106 English:

- 1.The student teacher will acquire proficiencies in listening, speaking, reading, writing and communication skills.
2. The student teacher will get acquaint with essential aspects of English Grammar and composition.
3. The student teacher will understand the scope of syllabi in English.
- 4.The student teacher will develop interest and attitude towards English as foreign language.

BED 106- 06: UNDERSTANDING DISCIPLINES AND SCHOOL SUBJECTS

HISTORY

Learning outcomes 106 History

To enable the student teacher to-

BED 106-07: UNDERSTANDING DISCIPLINES AND SCHOOL SUBJECTS

GEOGRAPHY

Learning outcomes of 106 .07Geography

1. student teachers will able to revise the knowledge of all Branches of Geography subject at a school level.
- 2.The student teachers will be able to understand the interdependence and interrelationship among the various concepts and processes in Geography Subject.
3. student teachers will be able to acquire the skills related to map and instruments in Geography.
4. The student teacher will able to develop a technique of observation and reporting of Geographical phenomenon among student teacher.
- 5.The student teacher will be able to create interest in Geography subjects among student teachers.

BED 106-08: UNDERSTANDING DISCIPLINES AND SCHOOL SUBJECTS

GENERAL SCIENCE

Objectives: To enable student teacher to

- 1)The student teacher will understand nature, scope & importance of general science at secondary level.
- 2)The student teacher will analyze the textbook& content of general science at secondary level.
- 3)The student teacher will Understand life on the earth.
- 4)The student teacher will help to Understand the basic concepts of different branches of chemistry.

5)The student teacher will help to Understand concepts in Physics.

6)The student teacher will familiarize facts, terms, concepts , laws & principles in general science.

BED 106-09: UNDERSTANDING DISCIPLINES AND SCHOOL SUBJECTS

MATHEMATICS

Learning outcomes:

To enable student teacher to

1)The student teacher will understand nature, scope & importance of Mathematics at secondary level.

2)The student teacher will analyze the textbook& content of Mathematics at secondary level.

3)The student teacher will help to Understand basic concepts in Arithmetic, algebra, and Geometry.

4)The student teacher will familiarize facts, terms, concepts , laws & principles in Mathematics.

5)The student teacher will able to Apply basic concepts of Mathematics in daily life.

BED 107-01: PEDAGOGY OF THE SCHOOL SUBJECT

MARATHI

Learning outcomes:

After studying this course the student-teacher will be able to-

1)The student teacher will able to Understand the nature, scope and importance of the subject.

2. The student teacher will able to State the correlation of the subject with other subjects.

3.The student teacher will State the objectives of teaching of the subject at secondary and higher secondary level.

4. Explain and use the different methods, approaches and techniques of teaching learning of subject.

5. Explain and understand the structure of subject.

6. Explain importance and use of core elements, life skills and values.

7. Analyze the textbook and content.
8. Explain the concept and types of curriculum and syllabus.
9. Analyze the various resources in teaching learning of subject.
10. Understand role and qualities of a good teacher.

BED 107-02: PEDAGOGY OF THE SCHOOL SUBJECT

Hindi

Objectives

- 1.The student teacher will able to understand the nature, scope and importance of the Hindi subject.
- 2The student teacher will able to know and understand the objectives of teaching of the subject at secondary and higher secondary level.
- 3The student teacher will able to explain the use of different methods of teaching Hindi.
- 4.The student teacher will able to understand the role and responsibilities of good Hindi teacher.
- 5.The student teacher will able to acquaint the learner with all learning resources of Hindi subject

BED 107-03: PEDAGOGY OF THE SCHOOL SUBJECT

ENGLISH

Learning outcomes

- 1.The student teacher will able to Understand the nature, scope and importance of the subject.
- 2.The student teacher will able to State the objectives of the subject.
- 3The student teacher will able to Explain and use different approaches, methods and techniques of teaching learning of subject.
- 4.The student teacher will able to Explain and understand the structure of subject
5. The student teacher will able to explain the concept and types of curriculum and syllabus.
6. The student teacher will able to explain the importance and use of core elements, values and life skills.

- 7The student teacher will able to Analyze the text book and content.
- 8 .The student teacher will able to Analyze the various resources in teaching learning of the subject.
- 9.The student teacher will able to Understand qualities of a good teacher.
- 10The student teacher will able to Analyze and evaluate the new trends of current issues in the subject.

BED 107-06:PEDAGOGY OF THE SCHOOL SUBJECT HISTORY

Learning outcomes

- 1.The student teacher will able to Understand the nature, scope and importance of the subject.
- 2 The student teacher will able to State the objectives of the subject.
- 3The student teacher will able to Explain and use different approaches methods and techniques of teaching learning of subject.
- 4The student teacher will able to Explain and understand the structure of subject.
- 5The student teacher will able to Explain the concept and types of curriculum and syllabus.
- 6The student teacher will able to Explain importance and use of core elements values and life skills.
- 7.The student teacher will able to Analyze the text book and content.
- 8The student teacher will able to Analyze the various resources in teaching learning of subject.
- 9The student teacher will able to Understand qualities of good teacher
- 10.The student teacher will able to. To analyze and evaluate the new trends of current issues in subject

BED 107-07 :PEDAGOGY OF THE SCHOOL SUBJECT GEOGRAPHY learning outcomes:

To enable the student teacher to :-

1. The student teacher will Understand the nature,scope and importance of the subject.

2. The student teacher will State the objectives of the subject.
3. The student teacher will Explain and use different approaches , methods and techniques of teaching learning of subject.
4. The student teacher will Explain and understand the structure of the subject.
5. The student teacher will Explain importance and use of core elements life skills & values.
6. The student teacher will Analyze the text book & content.
7. The student teacher will Explain the concept and types of curriculum and syllabus.
8. The student teacher will Analyse the various resources in teaching learning of subject.
9. The student teacher will Understand qualities of good teacher.

BED 107- 08: PEDAGOGY OF THE SCHOOL SUBJECT

GENERAL SCIENCE learning outcomes

To enable the student teacher to

The student teacher will Understand nature, scope & importance of general science at secondary & higher secondary level.

The student teacher will Analyze the textbook & content of general science at secondary & higher secondary level.

The student teacher will implement methods & models of teaching learning of general science.

The student teacher will acquire the competencies of general science teacher

The student teacher will Familiarize facts, terms, concepts, laws & principles in general science.

BED 107-09- PEDAGOGY OF THE SCHOOL SUBJECT

MATHEMATICS learning outcomes

To enable student teacher to-

The student teacher will Understand nature, scope & importance of mathematics at secondary & higher secondary level.

The student teacher will Analyze the textbook & content of mathematics at secondary & higher secondary level.

The student teacher will Implement methods & models of teaching learning of mathematics.

The student teacher will acquire the competencies of mathematics teacher

The student teacher will Familiarize facts, terms, concepts , laws & principles in mathematics

BED 108: Teaching Competency I: learning outcomes:

(a) Micro teaching:

The Student teachers will get information about

Set Induction skill

The student teacher will help to understand good criteria of Demonstration

The student teacher will acquainted with different aspects of Stimulus Variation

The student teacher will help to understand the different aspects of Narration

The student teacher will come to know different aspects of Black Board Writing skills.

The student teacher will help to know construct and types of Questioning

The student teacher will come to know different aspects of illustration skill.

(b) Integration lesson:

The student teacher will get an idea about perfect integration of micro skills in integration lesson

The student will conduct each 3 integrated lesson of both methods

C)Simulation lessons

The student teacher will able to take each 1 simulation lessons per method.

BED 109: Teaching Competency II: learning outcomes:

The student teacher will get information about to conduct of Technology based teaching lessons

Student teacher will conduct two lessons using technology on the peer group.

The student teacher will able to take Team teaching with help of 2 to 3 student teacher

Student teacher will conduct two lessons based on concept of team teaching.

(c) Lessons using Models of Teaching

Student teacher will conduct two lessons based on any two models of teaching

The student will be able to understand steps of different models of teaching.

BED 110: Teaching Competency III: Practice lessons and Introduction to internship learning outcomes:

1. The student teacher will be able to take teaching method practice lesson at different schools.
2. The student teacher will be able to use different teaching methods.
3. The student teacher will be able to use different teaching aids according to content.
4. The student teacher will be able to prepare different teaching aids.
5. The student teacher will be able to handle school process during the 4-week internship.
6. The student teacher will be able to assist school teacher during internship.

Course 111

Critical understanding of ICT

Cocurricular Activities

Social service

Learning outcomes

1. Student teacher will be able to understand ICT
2. Student teacher will be able to organize different Cocurricular Activities
3. Student teacher will be able to take social responsibility
4. Student teacher will be able to make PPT

Course 112

Health and Yoga

1. Student teacher will help to understand different types of yoga and exercise.
2. Student teacher will come to know the importance of yoga and in life.

**Overall Development of Student teacher :
development?**

Development refers to the physical, cognitive, and psychosocial

Physical skills

- To Understand importance of yoga for healthy and peacefull life
- To be flexible and build stamina through different games

Cognitive skills (contains content knowledge, Pedagogical knowledge,)

- To impart respective subject knowledge and methodology conceptual knowledge
- To get acquainted with use of different methods
- To analyze content analysis, textbook analysis
- To be able differentiate between curriculum and syllabus
- To Promote creativity , experiment learning

Professional Qualities

- To develop Professional qualities of student teacher for preservice training
- To uphold good qualities of teacher
